Mini Groundworks	28
Safety	29
Index	30

We have a specialist division aimed at the disaster recovery and property restoration sector. Fire, water and storm damage is becoming increasingly more evident. We have large stocks of drying equipment available for delivery at short notice across the country.

Moisture and humidity can give rise to mold, mildew and musty odours, which in turn creates discomfort to occupants and may even cause damage to your property. The Kellaway Hire Services range of products can help get the moisture and microbes out, before mold, odours and mildew settle in.

STEPS

1. Locate and stop source of water intrusion.
2. Remove as much standing water as possible using the appropriate pump.
3. Contain the area by closing doors and windows.
4. Position multiple airmovers along wet walls and set up at least one dehumidifier in the space.

DRYING SET UP

Set the airmovers to create a circular airflow pattern. For areas larger than 300 sq.ft, use additional airmovers and dehumidifiers.

KELLAWAY HIRE SERVICES GUIDE TO DRYING & FLOOD RESTORATION

AIRMOVERS

Circulate and evaporate water into the air

DEHUMIDIFIERS

Remove moisture from the air.

SAFETY TRAINING

Certificated training is now mandatory for the assembly of particular site products. Kellaway Hire Services can offer on site certification, classroom training or hands-on training to suit the needs of your staff and sub-contractors. Call us for more information on how to be safe.

* There are a wide selection of drill bits and accessories available.

WAKE UP TO HAND ARM VIBRATION

● Hand Arm Vibration (HAV) is vibration that is transmitted from some work processes into the hands and arms. If regularly exposed to high vibration various injuries

to the hands and arm can develop, together these are called Hand Arm Vibration Syndrome (HAVS). The commonly known Vibration White Finger (VWF) is a disorder that brings about problems causing impaired blood circulation.

WHAT ARE THE SYMPTOMS?

Tingling in the fingers / Numbness / More painful attacks can develop that may lead to the inability to grip / Less sensitive to temperature and touch.

BREAKERS ELECTRIC & PETROL

We have a wide range of electric breakers available for hire also petrol ones for sites with no power.

TYPE	24HR	48HRS	WEEK

“OUR SAFETY COMMITMENT TO YOU”

- 1** Written and verbal instructions will be offered and provided when hiring equipment.
- 2** All equipment hired from us will be in good safe, working condition.
- 3** All customers will be informed of safety equipment relevant to machinery hired from us.
- 4** A working demonstration will be offered to customers and use of the machine fully explained.
- 5** All 240v equipment will be provided with a free 240v rcd, to protect from electric shock.

INSURANCE

We urge our customers to insure the hired equipment against loss or damage whilst on hire as equipment not returned will be charged for at the full current replacement cost. This charge will be additional to any other costs incurred.

QUESTIONS AND ANSWERS

If you have any questions regarding hire of equipment we are here to help and will do everything possible to answer any enquiries from customers.

hireshield[®]

SHORT TERM PLANT HIRE INSURANCE

Hireshield is a new online 'short term hire' insurance facility which has been created by the NPA Insurance Broking Group and Zurich Insurance for the benefit of our plant and tool hire customers.

To obtain a quote, visit www.hireshield.co.uk enter the hire shop's user name and password and the rest is simple.
